

## ONCE YOU GET TO

## SALAMANCA

- Before your arrival you will receive a series of documents with all the details you need to know: address and details of your accommodation, a letter from your host family if you have selected this option, a series of tips for living with a family / in an apartment, your schedule for the first day, and a map showing the location of your accommodation and some nearby supermarkets in case you need to buy something on arrival.
- If your arrival is scheduled for a Saturday, and there is an activity organized for Sunday, we offer you to participate with the rest of the students at the school.
- If you request this via email we can add you to our WhatsApp group in advance (this is usually done on Monday) a means by which the school can inform you of activities, schedules and cultural suggestions; and at the same time, you can make plans to go out with your classmates, get to know each other and make friends.
- We recommend that on the day of arrival you meet your roommates, have dinner with them or participate in any activity or outing that they have planned. Go ahead ask questions, curiosities, find out about their tastes and the places they usually frequent to have ideas and start to get familiar with the environment.
- Also, take a look at all the rooms in the apartment and talk about organizing cleaning plans so that everyone feels comfortable and maintains a pleasant coexistence.
- Normally the shared flats are located in the same square as the school, so go take a look at ISLA or ask your classmates to take you to see where it is!

HAVE A GREAT STAY!
